

Health Professions Organization 2011-2012

Help us make this YOUR organization

We have tried to put together some exciting, fun, and hopefully informative presentations for you this year, but seeing as nobody is perfect, we may have missed something. *That's where **you** come in.* Please take a few moments and review the following questions to help make this year even better. We want criticism, as well as positive reinforcement.... basically anything you will give us. Also, if there is anything that you need help with or would like to voice a concern about, please ask one of the officers or an upperclassman. We were freshmen too and we'd be more than glad to help you out. ***Please put your name and contact information on the bottom if you like and/or if you want a response.***

What are you expecting to get from HPO this year? What would you like to contribute to HPO this year?

Do you have any ideas for community service projects we can perform as a club?

Have you shadowed with any doctors yet? If you have, and you believe they would be willing to accommodate more students, please list their name and contact info.

Do you have anything else you would like to suggest or add? (If you don't write anything, we don't have anything to read....and we can be boring people focused only on our work, so humor us. Give us something!)

(optional) Name and contact information _____
